Anis Slimani

PRODUCT MANAGER

Paris region | anisslimani.com | linkedin.com/in/anisslimani | anisslimani013@gmail.com

Product Manager with a design and computer science background. I frame the problem, prioritize, and ship: from blank brief to live V1 in 6 weeks as sole PM and designer, with impact tracked through **KPIs** and **generative AI** in daily practice.

EXPERIENCE

AI Product Manager and Designer, Brief to Ship

Apr 2026 - Jun 2026 | Remote | Client project shipped

- **Sole PM:** for a non-technical luxury hospitality and leisure client, framing, personas, JTBD, RICE prioritization and roadmap, from blank brief to live V1 in 6 weeks.
- **Delivery:** 52 Jira tickets in 16 epics, 36 user stories with acceptance criteria, Confluence space with roadmap, decision records and KPIs, QA through launch.
- **Trade-offs:** request-first booking model and online payment postponed to launch on time, then post-launch e-commerce rollout.
- **Build:** design system and front-end shipped with AI (Claude Code, Cursor).

Product Designer, Legalstart

Apr 2025 - Apr 2026 | Paris | LegalTech SaaS, product team of about 40

- **Rebranding of the company-creation flow (owner):** challenged with PMs and stakeholders through to production. 100+ screens, clarity score (CSUQ) from 4.2 to 4.9/5.
- **Discovery and data (team effort):** interviews, usability tests and Amplitude tracking on the conversion funnels. +2% conversion and -5% churn as a team.
- **Design system and AI:** unified Figma library (+10% velocity), 50+ reusable AI templates.

Independent case study, SNCF Connect

Sep 2026 | Self-initiated concept, not affiliated with SNCF Connect

- **Framing and validation:** hypothesis, North Star metric and guardrail defined before design. Tested with 5 participants: 0 of 5 spotted the disruption before, 4 of 5 after.

UX/UI Designer, ILAR

May 2024 - Aug 2024 | Tirana, Albania

- **Digital transformation:** built the visual library and UI components from scratch.

SKILLS

Product: discovery, personas, JTBD, RICE, roadmap, user stories and acceptance criteria, decision records, KPIs

Research and data: Amplitude, Dovetail, interviews, usability testing (CSUQ, SUS)

Tools and AI: Jira, Confluence, Figma, Claude Code, Cursor, Lovable, HTML, CSS, React
